In order to take the most illustrative pictures of the damage, please:

- Take a picture of the front of your home, in which your house or condo number can be clearly seen to establish your residence
- Use as much light as possible so that the damage is visible
- Take both close-up and more distanced shots to establish the damage
- If scale is not obvious, include some measuring implement (ruler, your hand, etc.) for scale
- etc.
- etc.
